

Athlete Profile

Xander Cayer

Why freestyle skiing? I believe that freestyle skiing allows skiers to have a platform to differ from others. You can stand out from others, not only in their skill set but their style and creativity.

Hobbies: Wake surfing, mountain biking and video games.

My idol is: I am inspired by every skier who puts in the hard work and effort, not only into skiing but also into off snow training. Anyone who puts hard work in, deserves success. To focus on one skier in particular, Phil Casabon has been a big inspiration to me. He is one of the most creative skiers in the game and has a different mindset towards skiing.

My Motto is: When you feel like quitting, think about why you started.

Person who had the greatest impact on me: For skiing I would say my friends have the biggest impact on my skill. They are my main motivation to have fun skiing and progress as an athlete.

Something you wouldn't know about me: I can't ski without listening to music
