

Freestyle Alberta Covid 19 Update November 30,2020

Dear Freestyle Alberta Community,

We appreciate your patience as we all try to work together to navigate through these unprecedented times.

Thanks to the hard work of our ministry workers we have been able to confirm that outdoor freestyle training may continue provided that athletes and coaches do not gather in groups larger than 10 and they all stay at least 2 meters from one another. In addition, Athletes should not travel to zones under less restrictive public health measures than their home zone.

Coaches and Athletes may not carpool with people who are not part of their household or stay overnight at training venues unless they are staying at their own family home. Families/Athletes/ Coaches should only be eating by themselves (i.e. no parking lot communal gatherings).

At this time, we must understand that we are very fortunate to be able to continue training. Other sports are not as lucky. Freestyle Alberta asks that clubs avoid making their training activities highly visible. Where possible, athletes should not wear apparel that promotes their club or freestyle skiing. Clubs should not display marketing materials such as tents to promote their club or freestyle skiing.

Freestyle Alberta is in regular communication with the Government of Alberta, and our sport organization peers and ski industry partners. As all of this is fluid, we be will be updating club presidents as information becomes available.

It is on the freestyle community to come together and be respectful of resort and provincial Covid guidelines. It can only take one group to shut us all down. If necessary, Freestyle Alberta will consider issuing penalties for any Freestyle Alberta members who are in violation of resort or provincial guidelines

Sincerely,

Jared Linden
FA Executive Director
