

## **Statement on Alberta New Covid 19 restrictions**

I am writing further to the recent announcement by the Government of Alberta of more restrictive Covid-19 measures.

As these measures are currently presented, they appear to prohibit all sport training, including freestyle skiing training. However, they also appear to permit outdoor physical activity and outdoor, physically distanced gatherings of 10 or fewer people.

Freestyle Alberta is in regular communication with the Government of Alberta, and our sport organization peers and ski industry partners to obtain clarity as to the application of the new public health measures.

We are hopeful that modified on-snow activities will ultimately be permitted, that our members will be able to continue to receive the physical and mental benefits of freestyle skiing while also helping to slow the spread of Covid-19.

We will share more information as it becomes available.

In the meantime, stay safe.

Jared Linden  
Freestyle Alberta Executive Director
